

# WIMS'11

## International Conference on Web Intelligence, Mining and Semantics

25-27 MAY 2011, Sogndal (Norway)

ATTEND A NEW CONFERENCE AIMED AT INTELLIGENT APPROACHES TO TRANSFORM THE WORLD WIDE WEB INTO A GLOBAL REASONING & SEMANTIC-DRIVEN COMPUTING MACHINE.

The WIMS'11 will provide a forum for established researchers and practitioners to present past and current research contributing to the state of the art of Web technology research and applications, and give doctoral students an opportunity to present their research to a friendly and knowledgeable audience and receive valuable feedback.

“ WIMS'11 is also an informal social event where Web technology researchers, thinkers and practitioners can meet. ”

The conference will be hosted by Vestlandsforsking (Western Norway Research Institute) in Sogndal. The region's scenery is stunning and varied, ranging from flat fjord-side districts to steep mountainsides, beautiful fjord arms, torrential waterfalls, blue glaciers and lush valleys.

### HIGHLIGHTS

- Golden keynote addresses
- Contributed presentations
- Tutorials
- Workshops
- News from Norwegian projects
- Breaking news session
- Poster session
- Panel discussion

WIMS'11 proceedings will be published by Association for Computing Machinery (ACM).
